

vanessa hall

the trust lady

Vanessa Hall is fast becoming one of the world's leading thinkers and 'do-ers' of trust.

With a background in Finance in Compliance and Risk Management, Vanessa has seen some of the worst of the breakdown and betrayal of trust, even in organisations that worked hard to be 'compliant'.

An epiphany from her son saw Vanessa resign from a high paying job, sell her house and her car and pour everything into understanding trust, uncovering the gaps in what was out there, and discover 'the truth about trust'.

She now leads Entente, the world's first International Movement of Trust, and unlike many other 'trust experts', Vanessa goes right to the core, unpacking and shining the light on what trust actually is, revealing the secrets to building trusted organisations, leaders, brands, families, marriages and communities.

Her work includes speaking, training and advising government, organisational, church, education and community leaders around the world, including Germany, Russia, Jamaica, Canada, Qatar, South Africa, Uganda, Columbia, Sweden, Lesotho and the USA. Vanessa sits on a number of Boards, is currently studying her Masters in Christian Studies, and lives in Sydney with her husband, Peter.
